Dear Subscriber:

Rubber Chemistry & Technology (RCT) is the premier journal for research on rubber science and technology. Journal scope covers fundamental research and emerging technical developments relating to chemistry, chemical engineering, materials science, and the characterization, simulation or processing of rubber and allied materials. RCT is read by scientists and engineers in academia, government, and industry.

Journal Name: *Rubber Chemistry and Technology*, Volume: 96, 2023

Published Dates: Quarterly (#1 March/April, #2 June/July, #3 Sept/Oct, #4 Dec/ Jan)

ISSN: 0035-9475

BACK ISSUE SALES: Limited back issue stock available at \$100 per copy. Contact [cbrady@rubber.org](mailto:cbrady@rubber.org). We encourage an online subscription if back issues are required. Our journal is available online in total from 1928 – present. Visit [www.rubber.org](http://www.rubber.org) for more details.

Membership Benefits:

- Rubber Division membership includes free single-user ONLINE access to web version of the journal. This includes full backfile from 1928 to the present.
- Members may add a Print subscription at \$100 discount off the regular Non-Member fee.

NOTE: Member access to the Journal is intended for the individual use of the Member only. Individual usernames and passwords may NOT be shared by multiple users within a company/institution. Such use may result in termination of your access. Thank you for your cooperation.

Information on division Membership, including CORPORATE memberships visit:

<http://www.rubber.org/membership> .

Payment:

Send subscription payments to the contact listed on the form above.

Publish in RC&T:

For information on submitting manuscripts to the Rubber Chemistry & Technology Journal, and for all other inquiries please contact:
