

Supplementary materials for Journal of Wildlife Diseases DOI: 10.7589/JWD-D-21-00030: Julia Silva Seixas, Sonia M. Hernandez, Melanie R. Kunkel, Alisia A. W. Weyna, Michael J. Yabsley, Lisa Shender, and Nicole M. Nemeth. West Nile Virus Infections in an Urban Colony of American White Ibises (*Eudocimus albus*) in South Florida, USA.

SUPPLEMENTAL FIGURE 1. Urban American white ibis (*Eudocimus albus*) rookery in West Palm Beach, Florida, USA. Nestling carcasses diagnosed with West Nile virus infections are indicated by the arrows (IDs: 314A, 314B, and 359). Nests with seropositive nestlings are represented by an “X”. The remaining nests monitored throughout the study are indicated by a circle.
